GENERAL

These luminaires are used indoors (ta 40°C) where backup light is needed. Each luminaire must be permanently connected to mains power supply. Charging begins automatically when we connect it with the mains. The small mains indicator gives a dim light during night. In case of mains interruption it becomes a good friend for young and old aged people for indoors

use as well as offices, houses, bedrooms, garages, mobiles, camps where someone might carry it.

USE

Plug in the device to mains outlet and charge will begin. At the back side of the device, there is one switch ON-OFF. This switch turns ON and OFF the leds. At ON position the LEDs light in any case of mains interruption. At the OFF position does not light in order to keep the backup duration for using it when it is necessary.

The light source contained in this luminaire shall only be replaced by the manufacturer, or his agent, or a similar qualified person.

NOTE! The light source is non-user replaceable.
